After hearing this horrible piece of news, Monkey 1558 was so traumatised and shocked by it that he dumsily fell down a skyscraper.

What this thing is:

A nation obsessed with technology and progress populated by various types of mad and villainous scientists. They're not evil, of course, it's just the aesthetics of it. Well, some of them aren't scientists either - those less academically talented generally find their calling assisting their ~~master~~ employer with their scientific endeavours (hump or other physical deformity not mandatory).
