Octinomom - *Atomic Night*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

A friend of mine recommended Sabaton. I'm currently listening to Ghost Division. Not my usual sort of music, but it makes an interesting change.

**This nation is a steampunk puppet of [New Aerios](#).**

It mostly represents my own political beliefs, but with more airships and top hats. Also, we have time travel.

Pro: Airships, top hats, goggles, ridiculously unrealistic floating cities, excessive brass pipes and gears all over the place, handlebar moustaches.

Anti: Realism, bananas, and those stupid bloody ponies.
