It's soul was disintegrated by a Gaster Blaster blast, so it's sacrifice was futile in the end 🤨

7291 was rescued by PETA.

What if two short-lived quasi-states in 1920s merged as one and made it into 21st century? Because why not?

Please note that not all things about this nation reflect my views.

Actually, a lot of things about this nation contrast with my views.

Likewise, 7291, along with 4 other monkeys from 7290 to 7287 rescued by the PETA shelter, were euthanized to "alleviate their suffering in the genocide".

7287 through 7207 were "rescued" by PETA in one van. 43 died of overcrowding, 4 got into a fight and died, 3 jumped out of the window, only to die on the highway. 49 were successfully rescued, only to be euthanized.

7207 was the only one to survive.
