Go ahead and add this album to the list I gave you.
Also add "Radio" by Ky-Mani Marley and "Control System" by Ab-Soul.

I liked Daudi Baldrs. Especially Illa Tidandi and the opener.

Longer than part II and III combined.

[Arcade Fire - The Suburbs \(Mr. Little Jeans Remix\)](#)

Your nation is like a son. What it does right is your merit, as well as what it does wrong is your fault. When you praise it, be lucid and avoid exaggeration. Praising it too much can make it indolent. On the other hand, when you criticize it, be harsh, but do not ridicule it. Do your best to improve it, not through derision or disdain, but through good examples and dedication.

No, that's not my theme song. Gosh, I have better taste than that. A Succubus in Rapture is a mediocre song at best.

I disagree. The two bands are two different genres. I like how bassy Tarja's band is.
