long history to glean any culture from, and all that stuff, so either it's a cultureless wasteland or I'm going in totally blind. Sure, I get that it's supposed to be Germany plus Scandinavia, but it's clearly so far in the future that the names for the places have changed, I'm sure their cultures have too.

They're a market socialist nation, which is *extremely* based, along with a great quality of life, however, their economy needs a bit of work. Once it gets better, I'd move there as fast as I could.

There's not really a lot of info on offer via the factbooks, but if we go off NS Stats, no.

Drongonia (because their BN got hyper-ninja'd and never edited):

“
Since, Drongonia has grown to a population of over 35 million and enjoys some of the worlds highest levels of human development, civil rights, medical care and judicial fairness among other things. Drongonia has maintained excellent relations with both Australia and the United States throughout its history, and has since repaired relations between its Government and that of New Zealand.

Sure, why the hell wouldn't I?

Peenadian:

No. It doesn't seem like a very pleasant place to be natively-born, never mind as an immigrant.

Nah. Your civil rights, economy, and political freedom need some work, though I appreciate your high income equality and socialism.
