There's only one party, so...

### Factions

An authoritarian, hypercapitalist, Vrarist nation with large amounts of territory. Would be the second-largest nation by land area (including its colonies) if compared to all existing nations in the world. However, its mainland borders an ocean on only one side of its territory. It also has a weak navy, but makes up for it with a large (but weak) army.

Played by the same player as the owner of [East Stal Saillnerce](#). My RP quality is different on this nation, as it is an attempt to create low-effort, high-quality RP posts.

*If men were angels, no government would be necessary. If angels were to govern men, neither external nor internal controls on government would be necessary. In framing a government which is to be administered by men over men, the great difficulty lies in this: you must first enable the government to control the governed; and the next place, oblige it to control itself.*
