Monkey 5550 was a climatic fanatic and Monkey 5549 forced her to drink Coca-Cola. She refused to drink because it contains carbon dioxide, so Monkey 5549 poured into the Monkey's 5550 mouth. After that she got a lethal hysteria attack.

Monkey 5535 was fortunately a mirade doctor, who stabilized the other 5 monkeys enough to save their lives, however during the process Monkey 5535 hit a nail, and later died of an acute tetanus disease. This means Monkey 5535 was actually Monkey 5539! (Continue with Monkey 5538)

Monkey 5538 predicted the fates of many Monkeys and poured his meager intellect and engineering cunning to invent the time machine and saved all Monkeys who met misfortunes after Monkey 5538. When he tried saving Monkey 5538, the Terrible Time Tiger caught them and ate them (however the tetanus got 5538 before the tiger killed it).

Soon the sun will set- is that prophecy? No, it's merely an assertion of faith in the consistency of events.

Remember this Earth. Never forget her, but — never come back. If you come back, you might meet the Archangel at the east end of Earth, guarding her passes with a sword of flame. Space is your home hereafter. It's a lonelier desert than ours.
