The Tower's unique non-eudidean geometry is probably responsible for the fact it hosts 12 million people. Towers shouldn't *be able* to do that.

Their religion of Squidism, which strives for happiness for all "Inklings" and "Humans", was founded 616 years ago as of today with many of its traditional religious practices including "ceremonial soda drinkings", "4-day long parting", and "exploration of the Inkleling landscape". It's major religious text is the "Book of Madai", which is followed by a collection of 530 million people (500 Inkleling; 30 Human).

Kabzeel, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "*Royal Socialism*", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

Kabzeel is located in Eastern Europe/Western Asia, and has a mixture of a state-planned and a private market economy. The country, derived from Hebrew words meaning "God's Gathering," has a very high proportion of women (79% out of the population of 223 million) and those who follow Judaism (58%). It was established in the 9th century by Jewish traders and farmers, and expanded against the Byzantine Empire. It also had conflicts with the Ottoman Empire from the 15th to the 20th centuries. The culture is known for politeness and an emphasis on socialist extended family values. There are many civil rights but alcohol, divorce, and adultery are punishable by law, and LGBT people are not protected from discrimination.

The Boralis Effect is an enigmatic effect which gives Stars the capacity to erode anything that can be classified by Metra as complex armor, shields, spacecrafts, etc, essentially making their nation foolproof to any significantly bigger outer space nation.

I am loving these middle fingers people are giving to the OP space empires with no downsides. I love it.

Their most deadly battle killed or wounded nearly 8,250,000 people, making it more brutal than Stalingrad, Leningrad, and Moscow combined. This singular battle killed more than 3 battles combined on the deadliest front of the deadliest war (so far) in human history. The casualty rate of the wars this nation fights concerns me.

Oh frick, ninja'd. Aw man, it's Inkopolitia. Now I really have to go digging to find stuff I actually learned.

AN: Inklings do not have any form of bone structure. Instead, they have a cartilage system that allows their bodies to maintain a humanoid shape. This is useful, as they often turn into Free Galamari Squids for multiple reasons and allows for more muscular build-up compared to humans.

In the early 2020s, a second American Civil War over economic and environmental issues occurred. The conflict spread to all of North America, and communist revolutionaries from Mexico eventually took over by the end of the decade. The new country has become a major power in space development, and is very inclusive with languages, going as far as to create a more phonetic version of English to accommodate non-English speakers.
