Wonder if I should rewrite this in Altgish based on recent retcons.

Man I am SICK of people retconning, changing or otherwise altering their nations. Can't people just be happy with the nation they have?

Seriously you might as well just create a bunch of puppets or something and keep making them more and more stupid, since apparently the nation you have just *isn't good enough for you, huh?*

Man, that [New San Andreas Republic](#) guy sure is a swell fella. I'd love to be a [puppet](#) of him any day. He must control a bunch of nations that are similar to me, like my [friends](#) [NSAR Baja Territories](#) and [Caligulas Legion](#). Yes sir, I respect him a great deal.

Just to clarify, this nation is NOT post-apocalyptic: the Great War that caused the s*ithole of the [New San Andreas Republic](#) to exist hasn't happened yet!

07/14/1582 1700 GST: Technological Breakthrough in Orcoast! Bioengineer Leon Amerigan creates a device he calls the "nerve stapler." Using long, hair-like filaments, it can reach into the spine and brain and cause a subject to feel intense emotions, or lack thereof. Amerigan believes that it could change the future of psychotherapy, giving patients the option of undergoing rapid treatment for several trauma-related conditions.

As some have said before, it's a nice breakthrough, but emotional manipulation can be used dangerously if fallen into the wrong hands (e.g. torture).
