[Galaktik Cancer Squad - Bitter krieucht das Leben](#)

This one ends The Gathering, next one will open Ghost Light (one of the best albums this year!)

EDIT: after 7:40 this song will go into category "didn't see that coming."

The 2nd place on my Best Albums of 2013 list.

I didn't care for that song much. ☐

First time listening to Strange Spheres of Hyperborea. This one's rather weak song.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Someone suggested this band in a comment on the Post-Rock Facebook page (where I found the Hammock song), and I forgot how awesome this song was.

Durch Raum und Zeit sure is their best song. But now:

[Galaktik Cancer Squad - The Architects of Civilization](#)

Their longest song. Or should I say his since GCS is one-man band.
