This isn't a cliché and I don't really care much beyond idle curiosity but whatever happened to Miku the Based? I know they got a one week ban after they threw a hissy-fit when the mods rejected yet another one of their attempts to report someone for 'flame-baiting' because they criticized their homophobic and transphobic views, but they also were deleted literally the next day.

So like did they try to post past ban and got DEATED or did they suicide by mod?

Ohhh, boy. Short version?

They got DEATED for something unrelated, we decided to occupy their region, and then they escalated until they actually sent death threats. Then they got DOS'ed (probably; can't confirm).

There's quite literally nothing outside of NS. Apart from icky things like "the real world" and "other people".

Minor but annoying cliché: People in the "Out of Context AN" thread taking quotes from earlier in said thread. You're not quoting me out of context, you're quoting the nation I'm quoting out of context!
