Spanish society is largely secular. However, there are religious minorities in Spain, like Muslims, Christians and Buddhists.

Their Kingdom (Queendom?) is divided into 15 federal divisions. Then again, another map (the one about Union of Justice) maintains that they control a lot more than what that map hints, so either one of them is not canon or the territories not in the first map aren't "federal divisions" and instead territories.

The Union of Justice map is canon to my territories, but I have yet to update the map of my territories... I'll do it today.

#### Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Essentially, Capitalism goes its natural course, climate change becomes too big a danger to just ignore willy-nilly. So the UN, *efficient and trustworthy organization that it is*, tries to fix it. And they would have gotten away with eating the atmosphere's CO2 too if it wasn't for a pesky quantum band from the outer-space.

The UN tried to fix global warming in the late 2040's using quantum technology which would "delete" the CO2 from the atmosphere. It was succesful at first, but a stray Quantum ray hit the Earth causing a big world-wide grey cloud which prevented sunlight from reaching Earth for presumably decades
