Narator: Yes please, stop this nonsense! Do you have any idea what a disembodied voice feels when they have to shut up and not do anything!? It is torture! Today, there is no universal shenanigans, no Ashitter, or any of that! Today there is only me, Stanley, his bucket, and my story!

Narator: (shuffling papers) Now where were we? Oh yes, ahem. When Stanley came to a set if two open doors, he entered the door on his left.

All NS Stats are canon.

Oh, and I guess you can make up anything else about this nation, like geography and such, based on your own imagination. I don't really plan on writing lore on this nation, at least for now.

Stanley takes the door on his right, only to appear at the same set of doors.

Aila, in her limitless state, manages to prevent the galaxy where she is in from disappearing, along with everyone in it, taking a  $5.64 \cdot 10^{160}$  hit to her HP in the process. (Her max is about  $1.433 \cdot 10^{218}$ .) She then introduces the galaxy to Stanley's universe, and the superposition of planets that results causes Stanley to end up in the house belonging to Jake, while Jake's ghost is still with Erin's group. After that, she finally exits her limitless state and literally sleeps for the first time in months, exhausted from everything she'd done to stop Ashotu.

And according to her excessively reviewed and verified calculations, it will be  $7.31 \cdot 10^{72}$  years before Ashotu can set parameters to the right values to enter this universe.

Stanley: Finally something to do here.

He turns on the TV and watches a random cooking show.

Man realizes something. As he's watching this cooking show, he realizes long held by thoughts of his. On life.

Man moves to the Nepali mountains to become a mystic, only to be kidnapped by the Bigtopian Liberation Army, a very real force.

For peace, social solidarity, and democracy in our time. He/Him. Famed unbrow haver.

Call me Fiddle if you want. It's a cool name I think.

"Anyway, like I was sayin', shrimp is the fruit of the sea. You can barbecue it, boil it, broil it, bake it, saute it. There's uh, shrimp-kabobs, shrimp creole, shrimp gumbo. Pan fried, deep fried, stir-fried. There's pineapple shrimp, lemon shrimp, coconut shrimp, pepper shrimp, shrimp soup, shrimp stew, shrimp salad, shrimp and potatoes, shrimp burger, shrimp sandwich. That..that's about it."

Orade: "This is the first power crystal out of  $1.007 \cdot 10^{80}$  you need to obtain to reach that universe."

"The king shall rise or fall when a hero makes a decision, A comrade shall rise or fall, and the universe will die or rise" and teleports her back, though dread has the infection again."

Aila: So the king is Finnegan, the comrade is Jake, and the universe is this one. Just the most likely solution out of who knows how many... wait, I actually know how many. It's  $2.175 \cdot 10^{242}$ .

Meanwhile, Erin, Dread, Stanley and the others continue to gain XP from disassembling robots.

Larry: Why are we disassembling robots?

???: It's a full system reboot from scratch.

Show Spoiler

Also, post #5000. Lol.
