This is not my first time trying to write about a country based on Fortnite, as it is not my first time playing the game; yes, I did play before but not so much as most players do because of the game's lore. Now, forgive me if I am not so well-versed on the history of Fortnite but it's a free-for-all battle royale where Kratos, Eren Jaeger and Arcane Jinx shoot at each other while a banana man Fortnite dances in the background. That's...about it really, that's the extent of my knowledge on this game. Also, I'm not new to NationStates, it's me: [The Imperial State of Ateria](#).

There is no "free Belarus" flag. The Belarusian national flag has existed for over a century. Meanwhile the "free Russia" flag was invented by Russians who want to escape responsibility. Meanwhile I have had this flag in my lore a long time before the movement started.
