Depends on the results... murder carries the death penalty anyway, so:

Depending on the intent of the bombing, but if at least one person dies then it becomes 4 years in a rehabilitation facility, if it was a terrorist attack with the goal of attacking the nation's people it becomes 10 years in a "Corrective" facility, alongside with a future casus belli for some good ole anti-terror operations.

An attempted attack on the nation's head of state or government if applicable

Defenestration for attempted murder. Attempting to disrupt communication between medical professionals has no other possible motive than active intent to do harm. The offender will get their own taste of rock when they hit it.

Intentionally blocking traffic as an unsanctioned political protest.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.
