One of the few songs from that time frame that I actually like. On the top of my head, that is. There's likely a fair amount of other stuff I like from then too if I look for it.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
