Monkey 1783 got killed by an NFT collector because it looked like one of their NFTs.

What this thing is:

A nation obsessed with technology and progress populated by various types of mad and villainous scientists. They're not evil, of course, it's just the aesthetics of it. Well, some of them aren't scientists either - those less academically talented generally find their calling assisting their ~~master~~ employer with their scientific endeavours (hump or other physical deformity not mandatory).

Monkey 1779 became a General in the Continental Army for the United States during the American Revolutionary War. He had Monkeys 1797-1788 executed for stealing booze.

Afterward, the bodies of Monkeys 1797-1788 resurrected themselves for 10 minutes in order to execute Monkey 1779 by firing squad. Then they died once again.

Monkey 1779 was buried in Quebec.
