The Jamesian Republic is an allegory for the United States of America. It has 48 states like the USA did from 1912-1959 and the Stars and Stripes mean the same thing like they do in Real Life.

In 1791 their third president William Stockbridge wrote the Independence Proclamation and all members of the Jamesian National Congress signed it on September 24 1791.

The PT CUC is organized as a group of city-states loosely tied together by a supranational religious framework which organizes combined raiding efforts taking resources and tributes from the entirety of their immediate region.

Apparently, one of their government buildings was seized by a professional douchebag who wanted to stoke a race war because he was a douchebag and that's what douchebags do. The seizure was ended when a giant dump truck beep beep beeped into the building, and the guy was yonked into a van and never seen again.

Such a Caleshan way to end it... though we'd also throw the guy out a high window just for the sake of transparency.

Caleshan society is split into two separate arrangements: Mobile Tribes and Sedentary Tribes.

-The Mobile Tribes travel from location to location seeking out new resources with which to expand their influence.

-The Sedentary Tribes remain stationary, and are largely responsible for any permanent construction in Caleshan Territory

They're set in the Star Wars universe, and their *de facto* leader emits a "cold presence" to those around here, which I choose to interpret as her being a spooky ghost.

It's also just a straight-up dystopia, with every citizen being a member of the military junta and forced to follow orders from the moment of their birth until presumably dying in battle.

Imortess' hobbies aren't actually hobbies. Rather, they can be described as "bringing your work home with you." I mean, I know "slaughtering the innocent for fun" is a bit *too* cacklingly evil for what you're going for, but she needs to let off steam *sometimes*. Living like that ain't healthy, yknow?
