Basic Info: After the Siran destroyed Xoyia-Cryia in the Sixth Colonization War,
Xoyia became a colony, under an ultra-totalitarian economically thriving
technocratic regime, to the likes of Singapore, lead by the Subjugator-General
and his family. It's capital is in the Merchant Lands, which see many foreign
families coming for the purpose of business, called the District of Semaxanders-
Xillemsburg, which as you can probably infer used to be made up of the capitals
of the Semaxanders and Xillems tribes, before the Xoyian unification.

Tech: PMT with FanT elements.

Most famous for its time as a grand social experiment in which a
leading group of scientists ran the province based solely on the
decisions of a magic 8-ball. The surprising success of the temporary
nation swiftly led to the experiment being quietly shut down before
Rhanukhani citizens got any ideas about a better form of
government.
