Ashtu, you're already getting close to a ban/DEAT for your behavior on other topics as well as on this one. I'm not a mod or an OP by any means, but I strongly suggest you lay off.

Kingdom is like a permanent ban for a single character, You will have to start over and create a new character

well then, their users get to decide if their countries get dark dimension banned.  
You cant just ban the entire topic.

But you'll probably do it anyways and we'll have to call the mod back

OP has the ability to stop/void things even then, not you. If you want

something voided, ask the OP, I don't know how they'll respond if they do but I suggest you stop with the other crap. This isn't your thread. We're trying to enjoy ourselves here.

Because of the increased calories, the population of earth would begin to rise faster and more sudden than anyone expected, while in the Arctic and Sub-Arctic Regions (regions 300km from the Arctic Circle) Rice crops begin to fail in the winter due to harsh weather.

Ok, I just want to set a few things straight.

1. Bobland is in the algerbil alliance, they were a founding member and thus were fighting in the Catalan War.
2. Just gonna remind everyone about the Squirrel-Gerbil Confederacy, who the capuchins have forgot about despite them being loyal and close allies throughout the war with Paraguay, who recently surrendered, and Catalonia.

Anyways, Alberta-Saskatchewan invites everyone to sign the Treaty of Regina. The first demands come from Basquenland, Andorra, Estonia, and the SG Confederacy.

Basquenland: Historical Basque lands as well as parts of Greenland.

Andorra: The pre-RP Catalonia.

Estonia: Independent Latvia, and Polecat-Lithuania to pay war reparations.

The SG Confederacy: Gibraltar, Andalusia, Malta, and Sicily.
