As far as I know, they aren't a "historical" nation. They exist within their own setting with it's own setting. As far as I am concerned it takes place in the "modern age" but no-one in their setting has advanced past their version of the "Pre-Medieval Imperial Age".

Since the setting is akin to our past while existing in it's own setting without any supernatural elements, I'd be inclined to call Kiu Ghesik "pseudo-low fantasy".

Basically, yeah. The map is different, but there are some parallels, obviously- the Berghi take cues from the Assyrians and Old Kingdom Egypt, and that's basically where they are, the Ghesites are aesthetically Caucasus/Scythian/Turkic nomads, and the trader peoples are based off of the ancient Rus.

It's basically a proto-classical Strangereal, if that makes sense to you.

So it's like Tolkienist Fantasy. Wherein the fictional setting has some parallels and elements of the real world (or in Tolkien's case, it's "the Earth before the Earth"). But Tolkien had magic and shit and you don't (as far as I know). Point is, it's a fictional setting that is similar to our own ancient history.

Born in Kyoto, Japan, Oomiya Sakura magically lived for hundreds of years 1160. She avoided involvement in the Sengoku period. In the 20th century, she became involved in Communist movements and opposed Imperial Japan's colonization of Korea and Manchuria, even joining the Soviet Red Army in WWII. After the war, she was supported by the Soviet Union and the PRC to lead a communist revolution in Japan, which had united the world by 2005.

Hatsunia is an incredibly technologically advanced and aesthetically clean nation, heavily based on an idealised version of Japan with some anime thrown in there for laughs. The writer clearly has a very strong grasp of political systems as well, which I always like.

The French heartland has forcibly had its culture removed by the occupying powers in favor of something described as "Spartanian" in nature. This has led to Lazarie becoming one of the few remaining bastions of French culture abroad.

Beginning with Jonathan Carter, between 1961-1985, their country was ruled by the Carter political dynasty. Their rule was ended with the election of Donald Humphrey in 1985. They also don't seem to have instituted any term limits, seeing as President Frederick D. Vernon ruled for 12 years.

Shtet,

They were elected democratically the people loved them enough to have to be the presidents of the J.R. They had term limits they each served 2 four year terms.

Also they represent the Kennedy's if they survived and didn't get assassinated or had a failed election. Frederick Vernon served before term limits were implemented
