Hey hey, LP here: Too burnt out with this nation to make new lore or fix macrohistorical *longue durée* alt-his inconsistencies, too clingy to let it die.

Some kind of sci-fi polity that worships the sun.

This nation does not **entirely** express my views. But my sig does!

Pro: Capitalism, free market, Republicans, LGBTQ+ rights, religious rights, Separation of Church & State even though I'm Christian.

Against: Too much government regulations, homophobes, islamophobes, the type of liberals I have in my mind, people on all the extreme parts of the political compass, people that assume all Christians are homophobic and transphobic

In 1595, food shortages resulted in a war against neighboring country of Indoneistan, which got the name "The War of Meat".

For some weird reason, I found this funny.
