Primus - Shake Hands With Beef

My nation **DOES NOT** reflect my political views. The interplanetary-level Federation government is libertarian only for realism purposes, and functions more like a confederation. Since it has such a large territory to manage, the federal bureaucracy can only provide the bare essentials efficiently, while most other decisions are devolved down to the planetary governments.

If you're reading this, you are an winrar.

Yeah. I went through the entire Porcupine Tree discography a while back. Steven Wilson's solo work is also fantastic.

Go with Soundtracks For the Blind first. The albums 2 1/2 hours long. Then go with The Seer. They definitely got an interesting assortment of songs, so some of them may take a bit to get used to.

Will do. Steven Wilson has a new solo album coming out in February that is going to be awesome; he is working with Alan Parson as well so I have high hopes.

Even Less, Porcupine Tree.

Yeah. It's one of the albums I'm looking most forward to on the top of my head, along with checking out Woodkid's album, but I don't know how much I'll actually like it yet. Sigur Ros is also working on another album that will come out around the same time Valtari came out earlier this year, but next year. Not sure who Alan Parson is on the top of my head, but the name sounds familiar.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

I absolutely suck at typing on the Wii U tablet. I've never really did any type of texting before, so...
