While it's all very interesting and unique, I was surprised to learn that, through the mass deportation of non-white ethnic groups, 95% of their country's considered 'white'- while I'm not sure how Canada's population would affect the demographics, that's a lot of people to deport!

As a parliamentary republic, true power is invested in a legislature-appointed Prime Minister. What's strange about this is that unlike most parliamentary states, Gandoor *has* no "figurehead" Head of State -republican be it or royal- and instead the Prime Minister is also head of state.

Their version of the Napoleonic Wars/French Revolutionary Wars was the The Great Deoch Crig, where the HRE fell to a republican revolution. (France was forced later on to become a republic. I think. Admittedly, the English is pretty hard to read.)

The main political ideology, Wojakiewism, tolerates "the moral traits of capitalism" and believes that you should have to work hard to earn wealth (not just be lazy), while leaning more socialist when it comes to worker's rights and some social programs. Slavic nationalism and absolute monarchy are also featured, and it is also anti-abortion and against public displays of homosexuality (it is tolerated in private).

Soooo, if I'm reading it right, Japan yonked a couple chunks of their territory 'round the time of the Second World War in our time. The Danelaw yonked said areas right back following a different version of the battle of the Yellow Sea. Apparently Japan was much more keen on peace treaties in that world.

Spanish colonists took over the Incan empire, but some of the Spanish settlers (who married with the natives) rebelled and declared that they would form a new Incan empire, which would encompass most of northern South America. The culture is a mixture of Spanish and Incan influences with Catholic religion. In the Thirty Years War, Langenia turned Spain and Portugal into its vassal states (but they would later become independent again).

Hatsunia's name, like most of the nation, fundamentally mirrors the real Japan while diverging somewhat in details - its native name, *Hatsune-koku*, means "land of the first sound", referring to the first sound of the day due to its far-eastern location in a similar vein to how Japan's name means "origin of the sun" for much the same reason. It gained this name in the year 607, as per a letter sent to the Chinese Tang Dynasty.

Among the various nations of Post-Patron Patagonia, there is the Republic of South Cape. This nation, not only has a cool flag and goddam cowboy soldiers, but is quite 'wholesome chungus 100' compared to the hedonistic aristocrats to the north and the 'aryan' marauders to the east. Of course, in a fit of 'Everything sucks' that Patagonia is used to, not only is the nation one of the smaller post-patron states, it is both stated that it is under frequent attack by the Dirvanger Brigade and it is implied that the US has violently interfered within the day-to-day of the nation.

Also, Pope Francis is a warrior priest who will probably kick your ass back to Buenos Aires or whatever you call home, which is cool.

AN: The US lists both English and Russian as an official language, but only recognizes Spanish and Chinese.

This... doesn't rub well with me. In the OTL, America doesn't even have an official language. But I would imagine the Spanish would have a lot more weight than Russian, even in a timeline where Russia and America are the bestest of friends. If it were up to me, I'd place Spanish along with Russian and English as the official language while giving French, Chinese, and maybe the Native American Languages (or at least some of them) the title of 'recognized'.

Being in contact with the warm-watered sea of the Gulf of Mexico, precipitation moderates the climate of Wexas and it has a dry season and a wet one too. The latter lasts from Spring to Fall while the dry season extends from Fall to Spring. Variations may occur due to the El Niños or La Niñas phenomena which lengthen or shorten the rainfall.

Quite a few conflicts turned out differently, leading to an unfamiliar state of the cold war. For example, the Sino-Soviet split turned into an actual war, while the Eastern and Western fronts in Europe were far more disastrous for the Soviets but better for the other Allies.

(Currently presented in a travel journal format)
Neu Breslau was a village that became a military outpost and later a market town. It is inhabited by humans and demihumans from both Yverde and Earth. The inhabitants of Yverde are apparently unfamiliar with food being put in a can. The Silver Dew Tavern has a famous chef who used to be a general, and cooked spaghetti at this moment in time. At a bar, a member of an elite military unit known as the "Death Korps" is also encountered.
