Ice Cube - Death Certificate

intended replacement nation for United State of America
(original the character donut steel)

Who is in control of those in control?

[Why does Ben Lee \(who I assume is the linoleum faced 'wipe-clean-look' profile in the bottom right-hand corner\) look like Rene Auberjonois? Why would Odo be hanging around a rubbish looking holo-world full of quidditch goals that vaguely resembles rejected Final Fantasy 13 concept art? And what happened in order for him to want to breath tornados? And how?!... It would take a vaster intellect than mine in order to answer those questions.](#)

The Police - King of Pain

*When the war is over
Got to start again
Try to hold a trace of what it was back then
You and I we sent each other stories
Just a page I'm lost in all its glory
How can I go home and not get blown away*

"It is the ultimate irony of history that radical individualism serves as the

ideological justification of the unconstrained power of what the large majority of individuals experience as a vast anonymous power, which, without any democratic public control, regulates their lives."

everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there
