"The Queen is perhaps the definition of a "psychotic dictator". Most of her policies are quite frankly bordering on completely ridiculous to outright cruel with her policy of wanting to "break embargos and sanctions" being her one okay policy."

- [President of Kabzeel, Ekaterina Syukoseva](#)

Kabzeel, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "Royal Socialism", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

"Typical democratic ruler, this kind of ruler does not care about the people or their countries, they only care about satisfying enough people so that they can keep their power and a salary, they are not guided by morals or honor, they are guided by greed, Ms. Syukoseva does not have a minimum of respect for her people or for the inevitable changes that all cultures are destined to have in an increasingly interconnected world, it almost seems that for a woman who talks about not clinging to the past, she herself could not let it go."
