The "nation" isn't really a nation at all - it's really just a big fleet of stealth ships that can jump through the multiverse. Crazy stuff.

The Portuguese Commonwealth is inspired by the British Commonwealth to strengthen relations with former colonies. Eventhough ridiculed at first, but hey, it works.

The Brazilistani-Emirati Lukewarm War was a period of tensions (And after that, complete war) between Brazilistan and The Emirates. The Emirates started to stockpile nuclear weapons, and when Brazilistan found out, they started stockpiling their own nuclear weapons. The Lukewarm War ended when Corrunna Alaman, president of Brazilistan, was captured by Emirati forces.

That they have relegated English into a wholly phonetic format, superficially for simplicity but may be acting as a deviating agent for prior history.
