Santa has his elves rummage through all of Kirmizistan's files to see if there is any mention of "Mactopia"

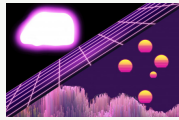

tutto è possibile, Entro i limiti umani

In Italian it means

Anything is possible, within our limitations

Or at least i hope that's what it means since these days you can't trust google translate. For all I know I could be saying "Your mother was a hamster and your father smelt of elderberries!" PS: If you get that reference then you are very cultured.

Man realizes that he is in a time loop, and will undergo extreme suffering for eternity unless he does something about it. Desperate to prevent this, Man breaks the gun he bought at first instead of shooting himself with it, and holes up in his home, only going out to get food and drink.
