A post-apocalyptic, 1920s neoclassical-styled, multicultural federation of central European kingdoms led by Imperator Konstantyn after a bloody civil war. Governed as a secular and meritocratic liberal autocracy with a dirigist economy. Please show some love by upvoting one of my factbooks. Wall of texts doesn't come out of thin air, y'know.

Somewhere in The US, possibly Rust Belt/Mid-Atlantic region

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.
