They seem to be pretty heavily based on the GOC from the SCP canon

★ **The Plurinational Socialist Federation of North America** ★

"To a world of liberty and equality for all!"

A council communist federation that emerged from the ashes of a period of mass social upheaval in North America.

This nation takes place in a world where humanity is in the early stages of expanding into space.

Baifan's current leftist-agrarian ruling government began as a series of widespread riots against the previous regime, in part emboldened by 3rd Worldism and the NLF's success in Vietnam.

They are the last monarchy in Latin America. This is because of them being one of the longest held colonies of Spain and because of the aristocracy gaining power in 1974

Note: Many factbooks are in a constant state of WIP or being considered for entire rework or deletion

Welcome to The Alpes a Septentrionali Imperium, a nation where I brutalize and adapt Latin and French History to my needs to get my Ultraroyalist Absolutist French Monarchy with a vaguely French-sounding fictional royal family to work.

Don't ask about the flag, it has something to do with RMB RP that I'm involved with.

By the way, would love to make sweet, sweet war with your nation and see who wins. We're basically on equal footing if I remove both of our navies and Air Force.

In the meantime, they appear to be heavily inspired by WW1 France and have conquered most of Western Europe. They're going to war with the Balkans soon, so I hope that goes well for them.

To most 1997 is seen as the collapse of the United Nations, after the 21-year war the United Nations and the Global Defense Initiative were in shame and lost it's reputation due to failing in quelling the supernatural uprisings, and supernaturals alleviated most of the threats that the UN had to face, and so the UN and the GDI were abandoned by the world to be forgotten, and as such tempted fate by saying that doing so, they secured worldwide peace, little did they know about the threats that would come in 2005.
