Nile - *Utterances Of The Crawling Dead*

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Am I the only piano-loving guy here? I'm with [this](#) song. It is to be noted that I am also learning to play it on our little piano (aka an old and massive Steinway upright).

Nope. One of my main focuses used to be to learn piano, or keyboard, behind electric and acoustic guitar. Never really got around to actually learning any instrument, though...Because I slack like that.

Now I kinda wanna do drums, but keyboard, guitar, piano, ect still sounds good to me.
