Funker Vogt - *Time Of Dreams*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Wolves in the Throne Room-Turning Ever Towards the Sun

Atmospheric black metal band that decided they wanted to experiment with ambiance this time around. Considering that these atmospheric bands tend to have a lot of ambient parts, especially these guys, it works I guess. Curious to hear how it comes out.

### Funker Vogt - *Nothing New*

From Funker Vogt's second album. Pounding industrial electro from Germany. Feel that bass!
