[Amon Tobin-Wooden Toy](#)

Okay, this is the one where he mainly sings.

I listened to Wooden Toy and Lost & Found, not bad, I liked L & F a little more.

But yes, generally I'm more of an upbeat electronic kinda guy.

A Place To Bury Strangers - *Everything Always Goes Wrong*

“ **CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's

basically impossible to prevent it from happening.

Propane Nightmares - Pendulum

My favourite drum and bass song.

Drum and bass is definitely enjoyable when done well. I don't really think you would like the song as a whole, but the last minute of [this Bjork song](#) has an awesome drum and bass part. Sounds even better on the version I have on Spotify.

I found Crystalline quite good actually. And that is a nice DnB part.

Haha

My taste is quite weird. Like I quite like [We Will Fall Together](#) by Streetlight Manifesto, certainly not electronic. And then we throw in a bit of pop and metal.

Heh, I don't even know what to call that song.

My taste varies quite a bit, too. I was listening to ambient/drone music before moving onto electronic, and before that metal. Right now I'm just going through some electronic....Or listening to the same song on repeat, whichever.

Trying your song.

Used to be a straight-edge orthodox communist, now I'm *de facto* a state-capitalist who dislikes migration and hopes automation will bring socialism under proper conditions.
