Just had my School Talent Quest... so much bad singers! Time to listen to some real music.

Edguy - *"The Piper Never Dies"* (I listen to this song too much, but I am going to listen to it again. My ears urgently need curing)

Within Temptation - *The Howling*

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Skyloft - Hyrule Warriors soundtrack

It's a good game, you should get it. I've heard it's just Dynasty Warriors with LoZ slapped on, but I've never played a DW game before, but HW is pretty entertaining. Just saying. Carry on.

*Than you are right now, the UN is undone

Don't tell me the truth; I don't like what they've done  
Its payback time at the United Abominations*
