If you want a text to be black regardless of theme, you can use #000001. Likewise, if you want it white regardless of theme, you can use #FFFFFFE. One step high or low means it won't auto change based on theme. Cheers! <3

NS Stats were eaten by rats after being forgotten about in a black cell

I mean, the Pizza Delivery stats and the Cheese stats are pretty high for you, so explains why the rats love it so much. Maybe the cheese got smeared on the other stats.

Just a touch of TMI interlaced with information that could be thrown in a spoiler if not removed altogether. Not much else to be said, since it's mostly just informative text.

"Always striving for the future the great nation sees, one forged in fiery passion and dedication, and a will as strong as iron, its the Empire of Ignis Ferreus!"

That could be a good header.

When you get drunk on craft beer:

Khoikhoia • The Khoikhois Republic • NS Stats and WA resolutions were jailed for war crimes they committed from 1974 to 1991

Liberty, Equality, Union • Liberdade, Igualdade, União

"Land of the Adventurous" • Crime-filled alcohol-free Portuguese-English South African democracy weedfest, not too bad • Flag's not canon
Pinto da Costa, thank you for your service, but it's time for someone else now.
