Only one city holds more than 500,000 of their nearly 2 million population. Which hints that ignoring their capital, population is distributed nearly evenly in other cities.

The Province of Dawnland roughly corresponds to New England, New York, and The Maritimes, and apart from New York, it is a primarily rural province.

The North German Realm is an Empire that stretches across most of Northern Germany in a timeline with major differences to our own. They also control parts of North-Western Poland.

They only have ten national holidays, and five of them are named after Western European countries

Ah, well most of us know about their war with Peru, but they had a policy of enslaving the humans present after the Peruvian-Inkling War. They had an entire civil war with all the bells and whistles to go with it, it was fought between the slaving Allies from the north and the liberating Constitutionalists from the south. It would appear that the actions of the Emperor of Peru caused the previous leader to act harshly against the Peruvians.

Just some sort of Creative Writing experiment, Not meant to be my political views.

NS Stats are used alongside factbooks.

Factbooks are often updated, most of them are eternally works in progress. I don't have fancy words for you.

Tokyo got wiped out by the Communists, and Neo-Tokyo as a city was born. Crazy how Commies consider Capitalism and right-wing ideologies the ultimate threat when the commies killed more than 5 million people in an instant lol

While Inklings are omnivorous, they mostly consume marine animals. However, fruits and, interestingly, coffee beans, are also fairly common.
