What's the deal with rainbows? I mean sure, they are pretty, but why do people think they're gay? So there's a rainstorm, then it stops and the sun comes out. When people look at the new rainbow, do people think, "Oh, it's pretty!", or do they think, "That's gay"? What is up with that?

Since you mention high school... I'm gonna guess US. If you want to be specific, and I am just guessing my way (don't worry), I'm gonna say California, or Texas.

Canada is a second guess.

----

@ BN: I usually tend to associate with America or Canada. I know there are other places, but those are the more common places.

I am more used to having them called Secondary School. ^^; We have Primary, Secondary, and Tertiary Education here in Singapore.

Is that an American term?

And no, the pics in my main Factbook entry are from my country.
