"Animals can also express their feelings. If you listen carefully, you can tell what state they are in. For a kitty, "Meow~" means they are much happier than "Meow meow meow!", and in that situation, you can pet them as much as you want and they won't run away."

Someone told me cats purr and dogs wag their tail when they're happy. When I pressed on the link, a download prompt popped up.

Let's see how everyone reacts to this!

Imagine America, but an asteroid crashed into them in the late 1800s causing the planet to be blanketed in magic.  
Combines magic and modern tech into one conservative, hyper-capitalist society.
