Monkey #790 thought that traveling to Northern Ireland in the 1980s is a good idea, later, 790's coroner deems that he died due to misadventure.

Monkey 789 was captured while attempting to avenge Monkey 790. He escaped the prison, but while fleeing over the English channel slipped on his own tail and fell off the boat, drowning.

Monkey 767 was walking home happily after a sacrifice to the moon god when He was hit by a car whose driver didn't see him in the dark. Luckily, he wasn't badly hurt. The driver stopped, picked him up and took him to the hospital. Unluckily, a Boeing 767 fell on the hospital, killing hundreds. Only one of them was a monkey.

Monkey 763—750 were being transported to a monkey reservation, but then a massive truck had hit their transport and injured the monkeys hard enough to kill them. They were isekai'd to a fantasy world of might and magic, bestowed with great powers by the Monkey God Bor, and founded the Serene and Great Monkey Empire...

...which was then invaded a year later by the indefatigable Demon King and his army, leaving none alive.
