Grave - *Flesh Epistle*

**CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Stars of the Lid-The Lonely People (Are Getting Lonelier)

I was about to say this song title makes me think of my RP characters, but really, the one I think of the most is definitely getting less lonely.

Ok, so this thread has been permanently colonized by Corrian. Guess all of us can stop posting here.

## Stars of the Lid-A Lovesong (For Cubs)+ (Part 1)

I still think the first album I listened to by them is my favorite, but this ones pretty damn good, too.

## [San Cisco - Golden Revolver](#)

Your nation is like a son. What it does right is your merit, as well as what it does wrong is your fault. When you praise it, be lucid and avoid exaggeration. Praising it too much can make it indolent. On the other hand, when you criticize it, be harsh, but do not ridicule it. Do your best to improve it, not through derision or disdain, but through good examples and dedication.
