Where are the Inner Lands?

This answer might be hard to assimilate at the first time. The Inner Lands are a nation which only territory is excavated inside other nation's territory, we create tunnels, we dig holes, we conquer territory from the inside. Our favourite technique is to dig a hole inside the walls of a house or another type of building, and expand them a little bit, so they won't notice that their rooms are a little bit smaller, neither that they have people living inside their walls. Maybe we live in your house and you haven't noticed yet!

Read my concept in my Factbook. I don't use Ns stats so don't judge me on that.

Immediately after its secession from Iran in 1921 (which I am curious about. Reza Shah would *not* just let the largest Iranian Oil Fields go that easily), Ilam fell into a state of disarray by the Arabs -who probably in tone with the Arab Nationalist movements of the period all over Middle East, wanted to form an Ethno-state despite being the minority-, and resulted in an ethnic cleansing of the Arabs by the Ilamite government.
