"While I agree with Mr. Pickett's views on direct democracy, I do believe that citizens should have more of a influence on their government. Despite his support for a direct democracy, I'll have to denounce him for his white nationalist views. The fact that he sees people of African descent as 'anticitizens' a disturbing opinion.... It is also sad that he believes people of color are incapable of democratic self-rule which isn't true. As of right now my opinion on Mr. Pickett is highly negative."-[Prime Minister Amelia Larson](#)

"Akhens-Ari is an exceptional young woman, following in the footsteps of her even more exceptional father. To say that this is her sole misfortune would be, unfortunately, misleading. That she is strung along by an overweight oligarchy, imprisoned by the small world of her nomadic fellows, and is being swallowed alive by intense self-doubt- the sort only experienced by those who have seen *true* talent and glory and must act in its aftermath- is, perhaps, her much more immediate misery. I would feel pity for her, if not for the fact she seems capable enough to lead herself through it."

### Official Judgement of The Overseers:

Judgement: Cam Garam is degenerate  
Punishment: Burning

"Just by looking at this creature's appearance, we can already form a judgement. Nothing but pure degenerate filth of the worst and most heretical kind. That's not even judging his political actions which we deem loathsome. His policies and actions around democratization and expanding 'press freedom' is beyond abhorrent we must say, for any so-called 'liberty' is bound to wreak chaos. A thorough burning will do, for liberalization always ends up in an inferno of disorder."

The Tilminese Federation is a totalitarian fascist theocracy ruled with an iron fist by The Overseers, a fanatical organization of theocratic fundamentalists seeking to eradicate 'modern degeneracy'. Has scenic architecture, no light pollution, quiet streets and public executions for the smallest crimes. Oh and one in every four Tilminese has died from starvation, disease, execution, forced labor, and genocide ever since the Overseers have taken power but that's not too important.

"The age of piracy has been long gone and these types of profligates have been buried six feet under after meeting a fiery end by a navy cannonball and rightly so. The pirate is a profligate in the same level as the dreaded Patron who has led his country to ruins. His hands off approach will only breed further chaos for his crew as his crew of material-driven pirates will plunder and loot as they please at the expense of the people. Pirates who chase for Gomorrah will find themselves falling into the deepest pits of hell - far away from God's salvation. The familiar tune of sea shanties will be replaced by the wailing of the tormented and the trumpet of the angels."
