No, I'd genuinely be terrified to live in place where Pokemon are real. I'm not looking to get electrocuted because I scared the funny yellow mouse.

Seems like a decent enough of a place. Make some place for me!

Northern Dosletofe: Also known as "Disshërländ", is a wealthy Northern European country situated on the southern part of the "Svalbard" archipelago. Noted for its high quality of living, wages, the country also boasts a very complex digital and educational infrastructure and is the one of the few nations to have its own digital currency and to recognize AI's as residents. "Equality and respect" are the basis of the country's smart and healthy populace, symbolic of the country's National Animal and emblem, the "Arctic Swan".
