Nationstates:
Where paranoia transcends into existential horror.

I'm being serious (RL kicks in now and then), but sure, if you're taking my actual problem I'm trying to cope with as a joke or a mockery, do go ahead.

Anyway, I'm not going to talk further here because this should still be clichés, ain't it?

Just an attempt to keep a little humour here, it is F7 after all. If you're annoyed then I'm sorry, I just like to keep my NS experience outside of the dull shithole of real life and crack jokes.

If venting a little made you feel better, don't regret it. I don't know about you but I don't find bottling negative things up to be healthy, even if it's for a world-building game. Canned replies and tried jokes can be like a sort of death by a thousand cuts, so...it's quite understandable.

I'd feel a little guilty returning to clichés immediately now, feel horrendously self-absorbed as I use this thread as an idea farm for my lore.

Kiu Ghesik wrote:

less of a cliché and more of a bitching complaint on my part but one of the downsides of using a hub factbook with any content in it whatsoever is that certain people will exclusively select content from that hub without bothering to do any digging whatsoever on their own in threads about the

an's factbooks. it's insanely frustrating, but you can't really do anything about it in good faith because, well... they are still playing by the thread's rules.

it's just annoying to see the same two or three lines from your factbooks cited over and over again because people can't be arsed to scroll down.

Lucky when it's the first paragraph of the factbook. Some people just read the signatures.

Agreed, what I also hate are people who skim through policies or personality and then proceed to ignore the majority of the character's information and life. Even after a re-write, some will still be persistent in maintaining the exact same bog-standard opinion.

Don't get me started on those who judge PT characters on our current, modern standard of morality and then consider them all as 'evil' without ever considering the context or environment of the PT character in question. It's so ignorant for someone to look at the actions of a figure of the past and then judge them on the same basis as they judge modern people. It's plain stupid.

Judging people on morality is stupid to begin with.

Everyone knows objective conditions don't exist. Of course you can build a modern socialist country out of feudal backwardness where not even capitalism exists. Proof? I said so.

i mean it should technically be possible to build a socialist country out of pre-feudal societies, for a certain definition of "socialism". you just have to be willing to purposefully impoverish yourself and your entire tribe-group to the point where if you don't spread your food around equally and force people to work for the collective good of the band at spearpoint then you're all going to starve and die.

Speaking of leaders judging PT leaders, I don't think I ever had those problems with my sand elf nation from what I remember anyway. I also think judging leaders by modern standards in a post-apocalyptic world also doesn't make sense luckily I never had that problem with Area 6-Z with leaders going.

"How dare you not have a communist/facist/democratic society in a post-apocalyptic world!"

Just call me Aeri

I used the Inca as a reference to a FT puppet I once had.

But "socialism" is a misnomer. "Command Economy Administered by a Theocratic Ruling Class" is hardly catchy though.

Hey KG, why do I feel this is aimed at a certain Neolib warhawk nation whose policymakers can be described as "Asian Cheney"?

YOU MADE A SCIFI NATION WITHOUT LISTING THE EXACT ENERGY REQUIREMENTS AND OUTPUTS OF YOUR LASER WEAPONRY? YOU MADE A SCIFI NATION BUT DIDNT EXPLAIN HOW AN ANTIMATTER REACTOR WORKS IN COMPLETE SCIENTIFIC DETAIL???

HOW DARE YOU! YOU SHALL BE DESTROYED FOR YOUR SCIENTIFIC ILLITERACY AND INABILITY TO COMPREHEND THE BASIC MATHEMATIC CONCEPTS REQUIRED TO BUILD A FUSION REACTOR. NOW GO AND WRITE A THESIS ON HOW YOU CAN COLLECT ZERO POINT ENERGY AND THEN PROVE THE HEISENBERG UNCERTAINTY PRINCIPLE.. IDIOT!!

Effortposting is great and cool but unless the sci fi writer is a literal astrophysicist and mathematician then don't expect the ultra high quality super space accurate posts. Maybe this is just me trying to tell myself to shut up because I'm clueless when it comes to astrophysics formulas and thus criticise myself constantly as I don't know a lot of things about spess.

Oh well.
