The voting for primagisters is simple: there is a maximum of 100 members that are given this title.

Sounds like The Sixty that we have!

(I have a hunch that Karamiko (or Imarssia) is gonna reply to me! Nothing wrong with that. Just an educated guess. 😊)

Yes.

They arose from the aftermath of a nuclear holocaust, and somehow gained control of the entire planet with hippie vibes. And holy fuck their factbooks are like I'm tripping on some LSD or DMT.

A combined race of Vikings and American Natives who appear somewhat Asian, located in the N. Atlantic.

Tried the whole *Lets Build an Imperial Empire* thing, and then the *communism* thing, but now we're a chill island nation.

Valentine Z has two national personifications: Anna, the manifestation of Valentine Z's joy and happiness who has an aura of sunshine and light all around her and is usually exuberantly happy; and Klarissa, the manifestation of Valentine Z's natural world, who's more reserved and prefers to spend her time with nature, and whose vivid green eyes are like a portal to the undisturbed wilderness that she represents.

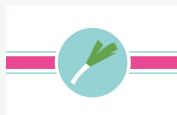

As per Valentian tradition, of course, each person also has about two dozen other names that I have insufficient brain matter to memorize. 🤪

Imarssians are apparently a very insular lot, having both the world's highest proportion of introverts and one of its least permissive immigration systems.

In addition to Arendelle's homeland in southwestern Scandinavia and a small part of Flanders, they effectively control the rest of Scandinavia and the Low Countries through the use of vassals. Much of the rest of Europe, including France, Spain, Wallonia, northern Italy, and Russia, are considered to be Arendelle's rivals, while Denmark and most of northern Germany are their allies.

Their government consists of a President, a Senate, and a Politburo, which seems to occupy the role of a cabinet.

AN: Soon after the end of their migration period, Vlaandia found itself in a crisis when the last king of the Aulfun dynasty was killed in battle against King Pepin I without an heir. Fortunately, a bloody power struggle was averted when Eutharic of the Vlaandian dynasty took his forces to the capital city and seized control before any other nobles could contest him. He soon made enough political bargains and curried enough favor with the Augustinian church to ensure his hold on the kingdom, before defeating Pepin in a battle at the old capital city. The city was destroyed, however, and Eutharic set up a new capital at Altenstadt, where his great-grandson Theodore rules today.

They're basically just the company *Dunkin' Donuts* but turned into a nation. They even have a "military" if it can be called one.

Karamiko: They are an unfrozen antarctica, united into a single republic under the rule of a Grand Council and a PM. This actually seems like a pretty nice place to live, considering that the world they live in has gone through a strange phase, where most places on Earth have turned into a different biome, including the towering Congo and Brazilian-coast rainforests, and the Saharan plains.
