Bloodbound - In for the Kill

*Rise to the Lord
In the land of the dead
Where the stars
And the sun never shines
Fight to be free
By the hand I have bled
Now in for the kill*

*Rise to the Lord
Of the wicked and wild
Where the dusk
And the dawn never ends
Fight to be free
From the unholy child
Now in for the kill*

The Dillinger Escape Plan - *Highway Robbery*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
