Assuming the person intentionally poisoned the milk, with the intention of hurting/killing the children...

If any child dies, death penalty.

If no child dies, life in prison.

Disclose the location of your nation's nuclear briefcase (another nation, if you don't have WMDs) and its codes.

Merulla is the land of the brave, the fair and of the heroes.

A great kingdom consisting of fifteen federative like states, with a decentralized power, where the real king is the Merullean people.

Come and discover Merulla, where the waves are born.

We use a different system than a nuclear briefcase; instead we use a nuclear control panel. Even if someone accesses it, at least 5 different generals have to confirm the launch. But... if you were to leak some launch codes and the location, it would be one month in prison for leaking sensitive documents.

Death penalty, doesn't matter what day it is, what the f*ck is wrong with you..

The streaker wouldn't be in trouble for anything as nudity is 100% legal in Cavius but the people playing sports would likely be imprisoned.

They might be taken to court to see if they are guilty or not. If yes, then they will be given a death penalty for killing someone. If no, they may be watched for some time but will be let go.

Questioned by what is essentially the Volhynan CIA. If anyone else was at home during the time you would be killed in your sleep. If no, you would be killed in your sleep. Your family would also be questioned just in case.

Edit: Nearly forgot to add the crime.

Murdering a 3-year-old.

Occasionally some charges depending on the severity, but being a nuisance proly won't be a crime in my country.

Not a crime. If one obstructs traffic, he will be asked to cease and desist (blocking the right of way). Will be issued a citation (if one does not stop) for being a public nuisance equal to one day's wage for each incident.
