Just listened. It's a solid song from beginning to end.

Paradise City - Guns N' Roses

Genre: Hard Rock

Album: Greatest Hits

Fun story, Axl Rose got the lyrics while on the bus going back to LA with the band. He started singing it, and Slash joined in and sang "where the girls are fat and they have big titties". Slash's lyrics never quite made it to the finished product.

Antonio Vivaldi - *Concerto No. 4 in F minor, Op. 8, RV 297, "L'inverno" (Winter)*

I will admit it has become excessively popular after Vivaldi's works and especially his *Four Seasons* were restored to their former greatness and prestige in the 20th century but I still like it.

Current 93 - They Return To Their Earth

Bonus track from *Thunder Perfect Mind* that really should've been on the main release. A poetic song with a quaint, pleasant melody but an underlying bittersweet nostalgia.
