The island of the Galapagos and the main power of South America controlling the West of South America. Militaristic and authoritarian with a troubled past and an uncertain future with stability at an all time low due to a lost war and unpopular occupiers.

The Catalan state has been keeping itself isolated from the rest of the world for years now. Its inability for it to reconquer its homeland has made it bitter against its foes, but what can they do? They don't have the capabilities to win a war conventionally with anyone.

But suddenly agents of the Burrito Republic arrive into the parliament building of the Catalans in Greenland, giving them an offer they can't refuse.

Catalonia suddenly launches a surprise invasion against the United European Federation using long-range ICBM support from the Burrito Republic. Successfully taking Iceland and continuing a defensive war against a European counter-attack

(erh I suppose Catalonia successfully took Iceland before it died in Greenland)

Kekistan takes the rest of Zoroastrian Iran and Turkmenistan (or Iraq territory of Iran and Turkmenistan, whichever it is) and pushes it down to the sistan and Baluchistan province of Iran, then, it turns it into a client state, and renames it to Zoroastrian Kekiran

The Greater Dos Empire collapses due to the burritos taking over the government, France is given to the Catalans and Italy is taken by the burritos.

Also, Corporatist Rome loses their European land, the land is now either unclaimed or claimed, Italy is taken by Burritos and any France land is taken by the Catalans, plus H a m b u r g e r takes over the entirety of the UK except Northern Ireland.

The Burritos and Catalonia continue their war against United Europe, utilizing the resources of their respective control over France, Italy, and the territories of the Greater Dos Empire to win a decisive battle in the Battle of the North Atlantic successfully capturing Svalbard and the Faroe Islands.

Europe continues to fight however even after a major naval battle. The Burrito Republic deploys ICBMs equipped with conventional warheads and begins a massive bombing campaign and infiltration campaign against European logistical and military facilities. In the chaos that followed in Europe, huge amounts of European infrastructure were destroyed as the mass attacks by the Burritos managed to weave through their extensive line of C-RAM, Anti-missile, and AAA defenses.

Catalan civils cheered in victory as European forces were now routed and focusing on a total war defensive effort. Catalonia had returned back to Europe. This time with a vengeance against those who had wronged them. The

Burritos continued to support the Catalans with everything they had.

The war continued.

The Irish Cinco decides to help the Catalans, sending a large sum of creepers to the Catalonia area of Spain, allowing the Catalans to take it. Also, they spread leprechauns across Spain, weakening it. Meanwhile, The Gerbil Empire takes over any countries touching the Sahara, including the Horn of Africa.
