we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

Haha you've already recommended me that song, Corrian. Yes, I did like it. I'm open-minded to pretty much any music, though most of my favorite bands fall under subgenres of rock and metal.

This song has a weird mix of random odd vocal things, like kids, robot, rap, and other stuff. And it's long.

Agh, this is when I need to actually read signatures instead of completely ignoring them

Deadmau5-Raise Your Weapon

'Launch Your Assault now, take it easy.
Raise your weapon, raise your weapon.
One word, and it's over.
Rippin' through like a missile.
Rippin' through my heart.
Rob me of this love.'

'Sign away our peace for your war, one word and it's over.
Dropping your bombs now.
On all we've built.
How does it feel now to watch it burn, burn, burn?'
